Sketches/Charts of A Thousand Suns Data

Sketch is based off of feedback from to lack of association related to the S&P dataset. These sketches represent the days of the week the testing took place per country. I will also consider the time of the day (and work to format the time using moment.js to account for differences in time zones).
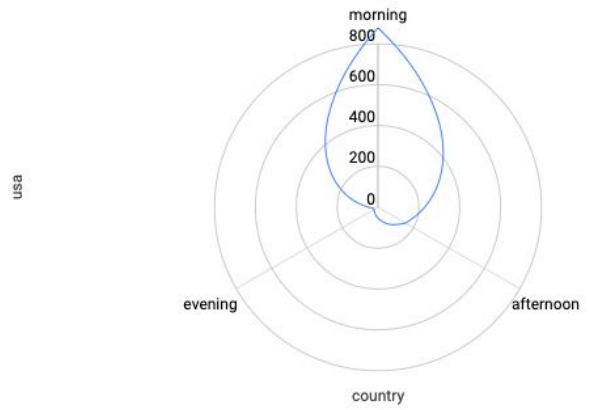

USA - Most prevalent testing on Thursday Morning.

USA- Day of Week Testing

Usa Time of Day for Testing

China - Most prevalent Thursday or Friday in the Afternoon.

China - Day of Week Testing

China Time of Day Testing

France - Most prevalent on Saturday Evening.

France- Day of Week Testing

France Time of Day for Testing

UK- Most prevalent mid-week Wed/Thurs/Friday in the afternoon or evening.

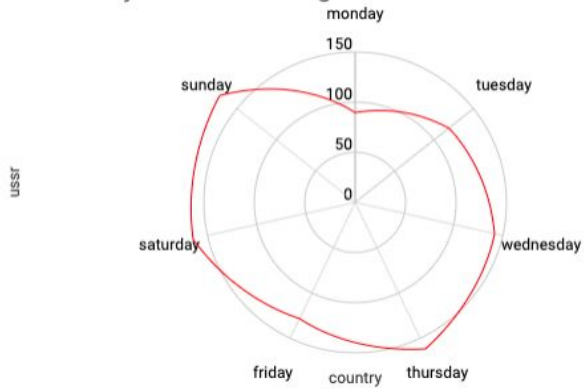

United Kingdom - Day of Week Testing

Uk Time of Day for Testing

USSR - Almost any day in the Morning, Less likely to test on Mondays.

USSR - Day of Week Testing

Ussr Time of Day for Testing
